Zoology: Mammals

The excellent field guide to **Whales, Dolphins and Seals** has been on the NHBS bestseller list ever since it was released in August. Serious marine mammal enthusiasts will also be interested in **Whales, Whaling and Ecosystems** and **Baleen Whales**. Madagascar is proving very popular with publishers this season, with **Mammals of Madagascar**, and three new and recent titles about Lemurs (**Lemurs of Madagascar**, **Lemurs** and **Ringtailed Lemur Biology**). Smaller creatures are given consideration in the **Water Shrew Handbook** and the new edition of the **Water Vole Conservation Handbook**.
