Birds of Ethiopia & Eritrea

Bird Ringing

Dear Customers,

Welcome to the NHBS Ornithology Catalogue for birdwatchers, conservationists and ecologists. Our Ornithology Catalogue is a selection of the best new and forthcoming birding books, plus featured classics and bestsellers.

Several great new titles on shorebirds have just been or are about to be published: **An Atlas of Wader Populations in Africa and Western Eurasia**, **Shorebirds of the Northern Hemisphere**, **New Naturalist: Wildfowl** and **Wildfowl of the Northern Hemisphere**. For a more in-depth understanding of the wetlands environment don't miss **The Wetlands Handbook**.

Bird conservationists will be excited to see new **Important Bird Areas** books for **Kazakhstan** and **Uzbekistan** – each of these authoritative inventories represent a huge leap forward in the level of information available for these regions. Useful in the field are: **A Best Practice Guide for Wild Bird Monitoring Schemes** - providing recommendations on establishing, running and improving national wild bird monitoring schemes - and the BTO's **Bird Ringing: The Concise Guide** - which tells you what you need to know about bird ringing.

There are major new titles for East Africa including **Birds of The Horn of Africa** and an avifauna to the **Birds of Ethiopia and Eritrea**.

Browse our wide range of **Wildlife Equipment**, including these birding bestsellers: **The Remebird**, **Schwegler 1B Nest Box**, and the **Droll Yankees New Generation Seed Feeder**. Watch - and hear - birds up close in their nest with the **Nest Box Camera Kit**, and help protect your field guides from rain and dust with the **Vista Organiser**.

We hope you enjoy browsing the NHBS Ornithology Catalogue. Please also free to browse our **Monthly Catalogue**, which consists of around 400 titles added to our database each month across our subject range.

→ **Gratis Books**

Working in close collaboration with Professor William Sutherland at Cambridge University, we have distributed copies of his Conservation Handbook and Bird Ecology & Conservation to people working in science and conservation in developing countries. Several other titles are in the pipeline.
