## Dear Customers,

Welcome to the NHBS Ornithology Catalogue for birdwatchers, conservationists and ecologists. Our Ornithology Catalogue is a selection of the best new and forthcoming birding books, plus featured classics and bestsellers.

Recent arrivals at our Devon warehouse include Carrol Henderson's superb field guide to the **Birds of Costa Rica** and the keenly awaited **Prion Birdwatchers' Guide to Cuba, Jamaica, Hispaniola, Puerto Rico and the Caymans**. July will see the publication of the completely revised second edition of the Helm **Field Guide to the Birds of the Middle East**, while Norman Arlott's **Field Guide to the Birds of the West Indies** is due in May. In case you missed it, Ber van Perlo's definitive **Field Guide to the Birds of Brazil** appeared at the end of 2009.

The list of IBA titles will be significantly enhanced in May with **Important Bird Areas of the Americas** from BirdLife International. Anyone interested in bird evolution and behaviour is likely to be drawn to Bernd Heinrich's **The Nesting Season** and OUP's major **Ecological and Environmental Physiology of Birds**. Ian Newton's essential **Bird Migration** appeared earlier in 2010 in the New Naturalist series.

Other key titles include the second edition of the **Collins Bird Guide**, generally held to be the best of its kind, the authoritative **Status of Birds in Britain and Ireland** and the second edition of **Raptors: A Field Guide for Surveys and Monitoring**.

Make the most of 2010 with our comprehensive range of ornithological equipment to cater for every amateur and professional requirement: **Countryman BGA binoculars** now updated for 2010, new **Odd Box nest box cameras** for unique side views, a complete range of **species specific nest boxes** and our best selling **chair hides, bag hides** and **lens covers**.

We hope you enjoy browsing the NHBS Ornithology Catalogue. Please also free to browse our **Monthly Catalogue**, which consists of around 400 titles added to our database each month across our subject range.

### → **Gratis Books**

Working in close collaboration with Professor William Sutherland at Cambridge University, we have distributed copies of his Conservation Handbook and Bird Ecology & Conservation to people working in science and conservation in developing countries. Several other titles are in the pipeline.

*"Thanks a million for your thoughtfulness. I received the Conservation Handbook. It is very useful to my project. Once again thank you very much and may the good God bless us all as we strive to make the environment a better place to live."* J Grody Dorbor, Liberia

### → **World Land Trust**

The Books for Conservation programme is an exciting partnership between the World Land Trust and NHBS. From simple beginnings in 2002 when we donated surplus books to the WLT, this programme has developed into an important resource for struggling NGOs throughout the world. To date NHBS have donated hundreds of books to this WLT donation programme.
