Virunga - English Edition

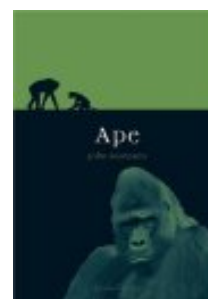

Tinbergen's Legacy

Orangutans

Not A Chimp

Ape

Mountain Gorillas

Dear customers,

Welcome to the **NHBS Primatology Catalogue: Spring 2009**

Hot off the press is the new **English-language edition** of **Virunga: The Survival of Africa's First National Park**, which provides a wealth of information on the dynamics and the current status of the park, home to gorillas, okapis, tropical glaciers and the world's largest active volcanoes.

Recently published titles include **Orangutans: Geographic Variation in Behavioral Ecology and Conservation** - detailing the similarities and differences in orangutan species, subspecies, and populations, and **Tinbergen's Legacy: Function and Mechanism in Behavioral Ecology** - detailing how Tinbergen's work built the foundations of modern behavioural ecology.

Mountain Gorillas reveals the complex story of the mountain gorillas of the Virunga Volcanoes and Bwindi through stories, scholarships and captivating photography.

Upcoming titles include **Ape** and **Not a Chimp: The Hunt to Find the Genes that Make Us Human**.

Our website www.nhbs.com has over 100,000 wildlife, science and conservation titles available for purchase, as well as a wide range of **wildlife equipment**, including GPS units, headlamps and waterproof notebooks.

You can order books and equipment online, by email, fax, phone, or post - our Customer Services team is pleased to answer any questions you may have.

Dr Nigel Massen
Managing Director

information that you need.

- You can browse through the subject pages online.
- You can view, save and print the complete **Primate Catalogue** as this single 1.4 Mb .pdf document.
- Items from this catalogue can be ordered online whilst browsing, ordered over the phone, by email, or by printing out an **order form** and posting us your order.

Supporting Conservation

NHBS is involved in supporting conservation at many levels - we consider this a key part of what we do and how we interact with conservation bodies and non-commercial publishers.

→ **Gratis Books**

Working in close collaboration with Professor William Sutherland at Cambridge University, we have distributed thousands of copies of his Conservation Handbook and Bird Ecology & Conservation to people working in science and conservation in developing countries. [Find out more about the Gratis Books Scheme.](#)

"Thanks a million for your thoughtfulness. I received the Conservation Handbook. It is very useful to my project. Once again thank you very much and may the good God bless us all as we strive to make the environment a better place to live." J Grody Dorbor, Liberia

→ **World Land Trust**

The Books for Conservation programme is an exciting partnership between the World Land Trust and NHBS. From simple beginnings in 2002 when we donated surplus books to the WLT, this programme has developed into an important resource for struggling NGOs throughout the world. To date NHBS have donated hundreds of books to this WLT donation programme.

FORTHCOMING Primate Parasite Ecology

The Dynamics and Study of Host-Parasite Relationships

Edited by Michael Huffman and Colin Chapman
Anyone who has spent an extended period in the tropics has an idea, through caring for others or first-hand experience, just what it is like to be a primate parasite host.

528 pages | 48 halftones | CUP
Hbk | 2009 | 0521872464 | #175530 |
£69.99 approx. \$101/€76

A Primer of Ecological Statistics

Nicholas J Gotelli and Aaron M Ellison
Explains fundamental material in probability theory and experimental design for ecologists and environmental scientists. The book emphasizes a general introduction to
