## ➔ Dear customers,

Welcome to the **NHBS Primatology Catalogue: Winter 2008**

We present a round-up of new and bestselling titles in primatology as a follow-up to our attendance at the **International Primatological Society Congress** in Edinburgh this August. We cover primatology in-depth, but also include a wide range of conservation, behaviour, and ecology titles, as well as a small selection from our range of essential field kit.

We interviewed Richard Wrangham, author of **Science and Conservation in African Forests** on **The Hoop**, NHBS's Blog. **Read our interview to find our more.**

This is a selection from over 100,000 titles in wildlife, science and conservation, orderable online, by email, fax, telephone or in writing. To stay informed about all the latest publications, sign up for our free email newsletters by e-mailing [subscribe1@nhbs.co.uk](mailto:subscribe1@nhbs.co.uk).

The wonderful images used to make the catalogue header and banners for this catalogue were taken by J P Moreiras and supplied by **Fauna & Flora International (FFI)**. FFI have projects in a number of countries addressing the urgent and immediate threat of extinction facing many primates. These include projects on the **Eastern black crested gibbon** and the **Tonkin snub-nosed monkey** in Vietnam; the world renowned **International Gorilla Conservation Programme** in Rwanda, Uganda and the Democratic Republic of Congo (DRC); and the **white-whiskered spider monkey** in northern Mato Grosso, Brazil. **Visit Fauna & Flora** to find out more about their projects around the world and to become a member or donor.

Please don't hesitate to contact our Customer Services Team for information on books or ordering - they will be happy to provide expert advice!

Dr Nigel Massen  
Managing Director
